WORK EXPERIENCE

Software Quality Assurance Engineer

Alright Tech Private Limited

05/2024 - Present

Rawalpindi, Pakistan

Achievements/Tasks

- Actively collaborated with clients during requirements gathering sessions, project reviews, and defect triage meetings, ensuring QA deliverables were fully aligned with business and user expectations.
- Performed comprehensive UI, Figma Design Parity, Cross-Device Responsiveness, and Functional Testing across multi-portal web and mobile applications.
- Conducted thorough REST API testing (Postman) to verify request/response JSON schemas, authentication tokens, data accuracy, and integration between system components.
- Executed Regression, Smoke, and Sanity testing cycles to ensure new features and bug fixes did not impact existing functionalities.
- Performed Performance and Load testing using Apache JMeter, analyzing response times, throughput, and system behavior under concurrent load conditions.
- Contributed to continuous improvement of QA processes by authoring Requirement Traceability Matrices (RTM), EP/BVA test coverage, and quality metrics.

Software Quality Assurance Engineer

Appium Logics Solution

06/2021 - 08/2022

Achievements/Tasks

- Performed manual functional, usability, and regression testing across web and mobile applications to ensure software stability and release quality.
- Authored structured Test Cases and Bug Reports in Jira/ClickUp, collaborating with development teams to resolve defects and improve overall software performance.

Professional Training in Software Quality Assurance

Hazza Institute of Technology

06/2022 - 08/2022

ACHIEVEMENTS

- Recognized as Employee of the Month at Alright Tech Private Limited for outstanding QA ownership and zero-escaped-P1 production releases.
- Ensured quality delivery for 20+ AI, FoodTech, EdTech, E-Commerce, and mobile applications, including secure payment gateway testing.
- Enhanced user experience and product quality in fast-paced Agile Scrum teams.

SKILLS

Web & Mobile Testing

UI & Figma Parity Testing

Functional Testing

Regression Testing

Smoke & Sanity Testing

Load Testing

Test Cases Creation & Execution

Postman

REST API Testing

Apache JMeter

Performance Testing

Bug Reporting (Jira)

Responsive Testing

Defect Analysis & Reports

SQL Verification

SDLC

PROJECTS WORKED ON

CovAlign AI (AI Career SaaS)

- Conducted UI, Functional, REST API (Postman), and JMeter Performance testing across authentication, AI resume-to-job alignment scoring, and dashboards.

Pommy Foods (Web, Mobile App, Admin, Kitchen & Driver)

- Executed UI, Functional, Multi-Portal API synchronization, and Performance testing across the 4-portal FoodTech ordering, Kitchen KDS, Driver, and Admin ecosystem.

SkilledTalk (Website & Mobile App)

- Performed UI, Functional, REST API, and Performance testing across interactive AI communication coaching sessions, roleplay modules, and real-time analytics.

Chef Bright (Figma to Production)

- Conducted end-to-end testing from Figma designs to production, including Figma UI Parity, Functional Testing, Regression Testing, and Cross-Device Responsiveness.

Potolo & Samanta

- Conducted UI, functional, API, and performance testing for quality assurance; created and executed test cases to validate application functionality and quality standards.

Sub Tracker & Sing N Track

- Executed Figma-based UI, functional, and regression testing across mobile app, web, and admin panel; identified defects and verified fixes with developers.

EDUCATION

Bachelors in Software Engineering

International Islamic University, Islamabad

09/2018 - 08/2022

GPA: 3.41
