WORK EXPERIENCE

Software Quality Assurance Engineer

Alright Tech Private Limited

05/2024 - Present

Rawalpindi, Pakistan

Achievements/Tasks

- Actively collaborated with clients during requirements gathering sessions, project reviews, and defect triage meetings, ensuring QA deliverables were fully aligned with business and user expectations.
- Performed comprehensive UI, Positive/Negative, and Functional Testing to validate application workflows, usability, and overall user experience across multiple web and mobile projects.
- Guided QA interns and junior team members by assigning testing tasks, reviewing test cases and bug reports, and tracking daily developer bug-fix updates.
- Supported Associate Project Management (APM) activities including client meetings, follow-ups, task tracking, and sprint status reporting.
- Conducted thorough API testing (Postman) to verify request/response structures, data accuracy, and integration between system components.
- Executed regression, bug verification, and retesting cycles, and performed performance and load testing using Apache JMeter.
- Contributed to continuous improvement of QA processes and built SpecToTest Studio (<https://spectotest-studio.vercel.app>).

Software Quality Assurance Engineer

Appium Logics Solution

09/2023 - 06/2024

Achievements/Tasks

- Performed manual functional, positive/negative, and regression testing to ensure software stability and release quality.
- Logged reproducible bug reports, performed bug verification and retesting, and collaborated with developers to improve overall software performance.

Professional Training in Software Quality Assurance

Hazza Institute of Technology

06/2022 - 08/2022

ACHIEVEMENTS

- Ensured quality delivery for 21+ AI, e-commerce, education, and mobile applications, including secure payment testing.
- Enhanced user experience, client communication, and product quality in fast-paced Agile teams.
- Recognized as Employee of the Month at Alright Tech Private Limited and creator of SpecToTest Studio.

EDUCATION

Bachelors in Software Engineering

International Islamic University, Islamabad

09/2018 - 08/2022

GPA: 3.41

LANGUAGES

English

Professional Working Proficiency

Full Professional Proficiency

SKILLS

Web & Mobile Testing	UI & Figma Testing	Functional Testing
Positive Testing	Negative Testing	Regression Testing
Smoke Testing	Bug Reporting & Retesting	Cross Browser Testing
Responsively Tool	Responsive Testing	Postman (API Testing)
JMeter (Load Testing)	Performance Testing	Jira
Test Cases Creation & Execution	Defect Analysis & Reports	
Client Communication	QA Intern / Team Guidance	
APM & Task Tracking	SDLC & STLC	Agile Methodologies
Generative AI / Prompt Eng.	Playwright	GitHub

PROJECTS WORKED ON

SpecToTest Studio (Built by Me)

spectotest-studio.vercel.app

- Designed & built an AI-powered QA system (<https://spectotest-studio.vercel.app>) that generates manual test cases from SRS documents/UI screens and exports 2-sheet Excel defect reports.

CovAlign AI

- Conducted UI, Functional, REST API (Postman), and JMeter Performance testing across authentication, AI resume-to-job alignment scoring, and dashboards.

Pommy Foods

- Executed UI, Functional, API, and Performance testing across Customer Web, Mobile App, Admin Portal, Kitchen Module, and Driver Delivery App.

SkilledTalk

- Performed UI, Functional, API, and Performance testing across Website and Mobile App covering AI communication coaching and real-time analytics.

Social Bricks

- Performed mobile app UI, functional, and regression testing; reported bugs and provided flow enhancement suggestions that improved overall functionality.

Chef Bright

- Created & executed test cases and conducted end-to-end testing from Figma designs to production (UI, Functional, Regression, and Responsiveness testing).

Potolo

- Conducted UI, functional, API, and performance testing for quality assurance; created and executed test cases to validate application functionality.

Samanta

- Executed UI, functional, API & performance testing and created & executed test cases for the Samanta project.

Sing N Track

- Created and executed test cases, identified defects, and collaborated with the development team to ensure timely fixes.

Sub Tracker

- Executed Figma-based UI and functional testing for SubTracker across mobile app, web portal, and admin panel.

XOblack

- Created & executed test cases and performed cross-browser and multi-device UI, functional, and regression testing.

Aleen AI

- Created & executed test cases and performed UI, functional, API, and usability testing across AI prompt/response workflows.

Sirmoney

- Created & executed test cases for financial workflows, secure payment gateway testing, API verification, and functional stability.

Cartengo

- Created & executed test cases for e-commerce shopping cart, checkout, payment workflows, and responsive UI across devices.
