WORK EXPERIENCE

Software Quality Assurance Engineer

Alright Tech Private Limited

05/2024 - Present

Rawalpindi, Pakistan

Achievements/Tasks

- Actively collaborated with clients during requirements gathering sessions, project reviews, and defect triage meetings, ensuring QA deliverables were fully aligned with business and user expectations.
- Performed comprehensive UI and Functional Testing to validate application workflows, usability, and overall user experience across multiple projects (including CovAlign AI, Pommy Foods, SkilledTalk, Chef Bright, Potolo, and XObblack).
- Conducted thorough API testing to verify request/response structures, data accuracy, and integration between system components.
- Executed regression testing cycles to ensure new features and fixes did not impact existing functionalities.
- Performed performance and load testing using Apache JMeter, analyzing response times, throughput, and system behavior under different load conditions.
- Contributed to continuous improvement of QA processes by providing feedback on test coverage, risk areas, and quality metrics, and built SpecToTest Studio (<https://spectotest-studio.vercel.app>).

Software Quality Assurance Engineer

Appium Logics Solution

06/2021 - 08/2022

Achievements/Tasks

- Performed manual functional and regression testing to ensure software stability and quality.
- Collaborated with development teams to resolve defects and improve overall software performance.

Professional Training in Software Quality Assurance

Hazza Institute of Technology

06/2022 - 08/2022

ACHIEVEMENTS

- Ensured quality delivery for AI, e-commerce, education, and mobile applications, including secure payment testing.
- Enhanced user experience and product quality in fast-paced Agile teams.
- Recognized as Employee of the Month at Alright Tech Private Limited and creator of SpecToTest Studio.

PROJECTS WORKED ON

SpecToTest Studio (Built by Me) spectotest-studio.vercel.app

- Designed & built an AI-powered QA system (<https://spectotest-studio.vercel.app>) that generates manual test cases from SRS documents/UI screens and exports 2-sheet Excel defect reports.

CovAlign AI, Pommy Foods & SkilledTalk

- Conducted UI, Functional, API, and Performance testing across web, mobile app, admin portal, kitchen, and driver modules.

Potolo

- Conducted UI, functional, API, and performance testing for quality assurance. Created and executed test cases to validate application functionality and ensure quality standards.

Samanta

- Executed UI, functional, API & performance testing for the Samanta project.

Chef Bright

- Created & executed test cases and conducted end-to-end testing from Figma designs to production (UI, Functional, Regression, and Responsiveness testing).

Sing N Track

- Created and executed test cases, identified defects, and collaborated with the development team to ensure timely fixes.

Sub Tracker & XObblack

- Created & executed test cases and performed Figma-based UI, functional, and cross-device regression testing across app, web, and admin panel.

EDUCATION

Bachelors in Software Engineering

International Islamic University, Islamabad

09/2018 - 08/2022

GPA: 3.41
